WALID AZZAM
AGS CEO

Customer satisfaction is always our top priority. We built our achievements and created our success story, gradually but surely, our company started with a real innovation in the field and is now one of the leading aluminum fabricators in Egypt. We feel pleased to state that AGS have executed successfully over than 50 projects ranging from commercial, administrative buildings to residential compounds. We are not just a company that fabricates Architectural Aluminum, rather we are also a company that delivers design, cost effectiveness and performance solutions.

Alu-Guarantee systems (AGS) specializes in the fabrication and installation of various aluminum products.

Our expertise and know-how, accumulated over more than 17 years of experience, combined with modern machinery, and state-of-the-art production techniques as well as the regular training of our team, reflect our strong commitment to achieving highest quality standards.

Our Mission

We want to contribute to a sustainable environment by furnishing the market with distinguishable and durable products that accrue to the architectural beauty of the projects.

Our Vision

Our vision is to become industry leaders through the successful partnerships and valuable experiences we create for our clients.

*Our expertise and know-how,
accumulated over more than
17 years of experience*

Core Values

CUSTOMER ORIENTATION

As a customer-centric business, we ensure our products appeal to our customers' aesthetics while maintaining a cost-effective approach.

INNOVATION

Changing is carved in our roots, researching experiencing new services and products to adapt to our marketplace diversity, and learning how to supply it.

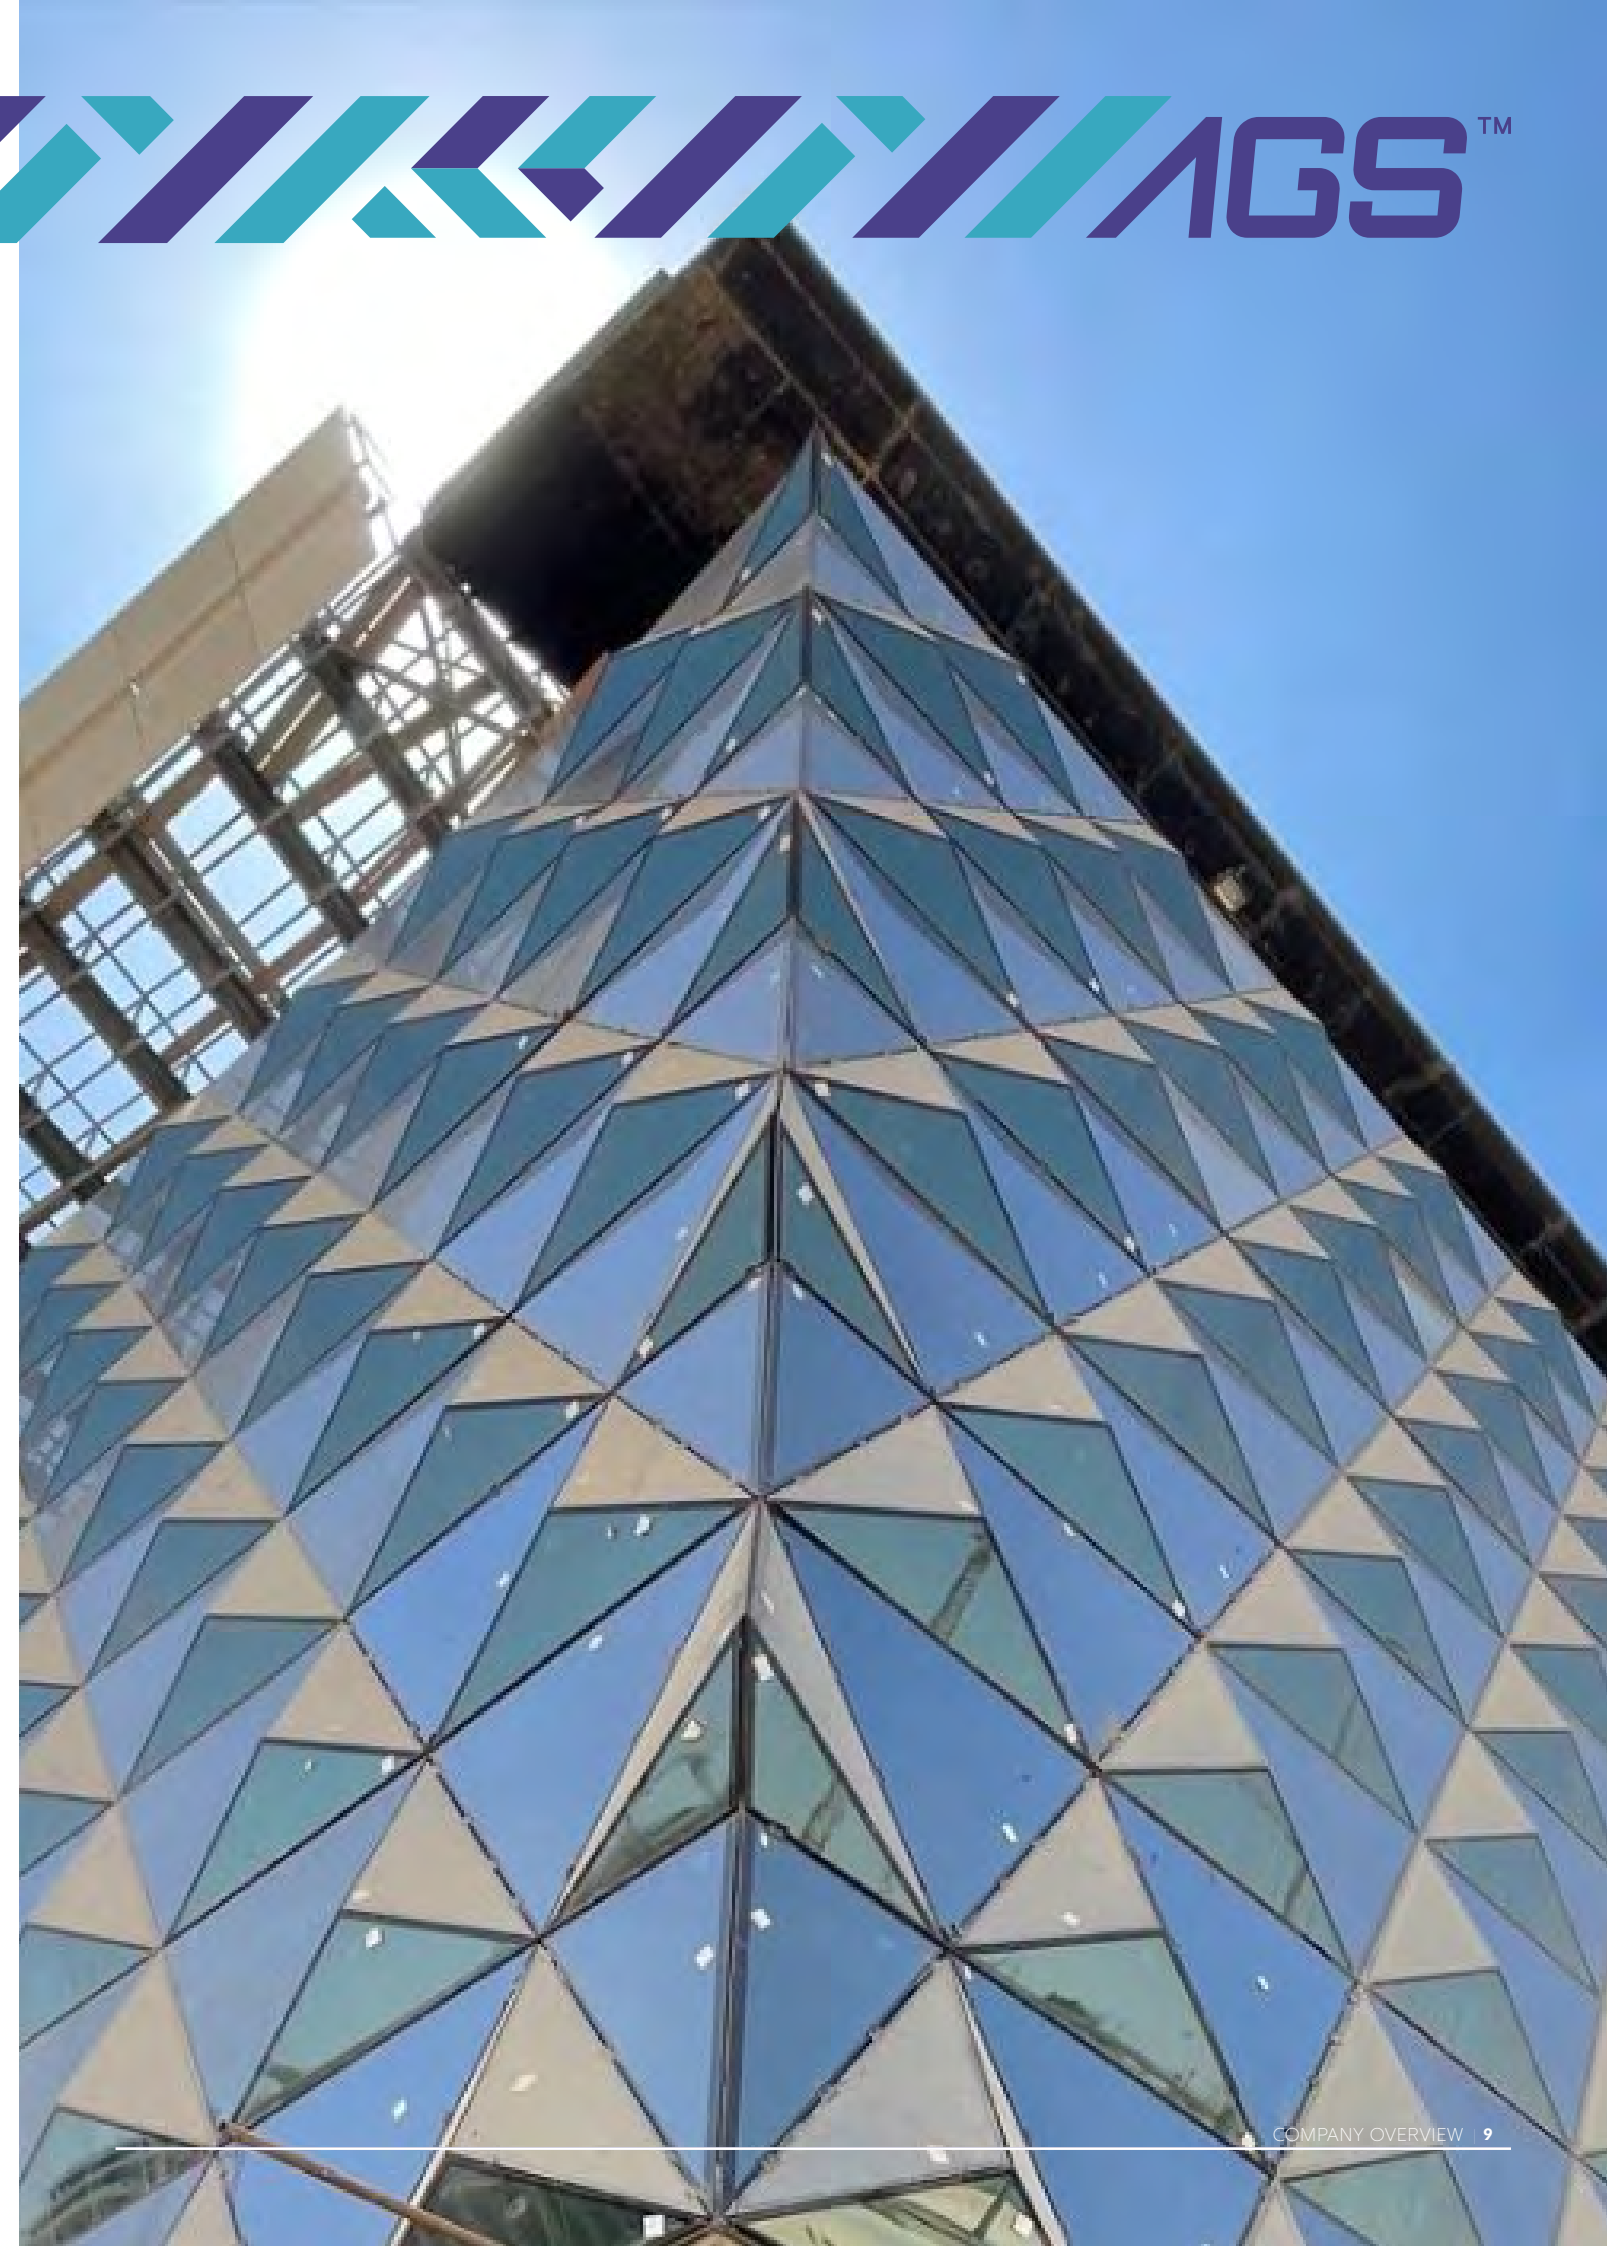

ADAPTATION OF THE ENVIRONMENT

We always strive to improve our environmental performance and reduce our environmental footprint.

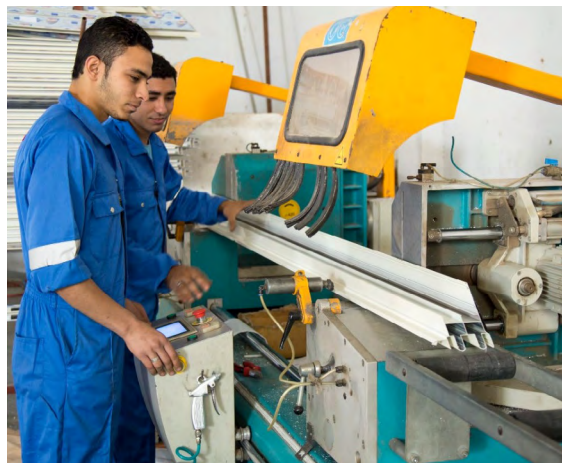

RELIABILITY

We are dependable, not only for the products we offer but also for how carefully we manage the relationships we develop. We believe consistency is the key to building trust.

OUR STORY

2012 2018 2020 2021 2023

AGS was founded by Mr. Walid Azzam and the first factory was built at Abou-Rawash industrial zone.

AGS delivered various projects including:

- 10 administrative building
- 5 water and electricity stations
- Over 1000 residential villas

AGS succeeded to deliver 30 projects.

AGS staff completed Hueck's technical training at Dubai's factory.

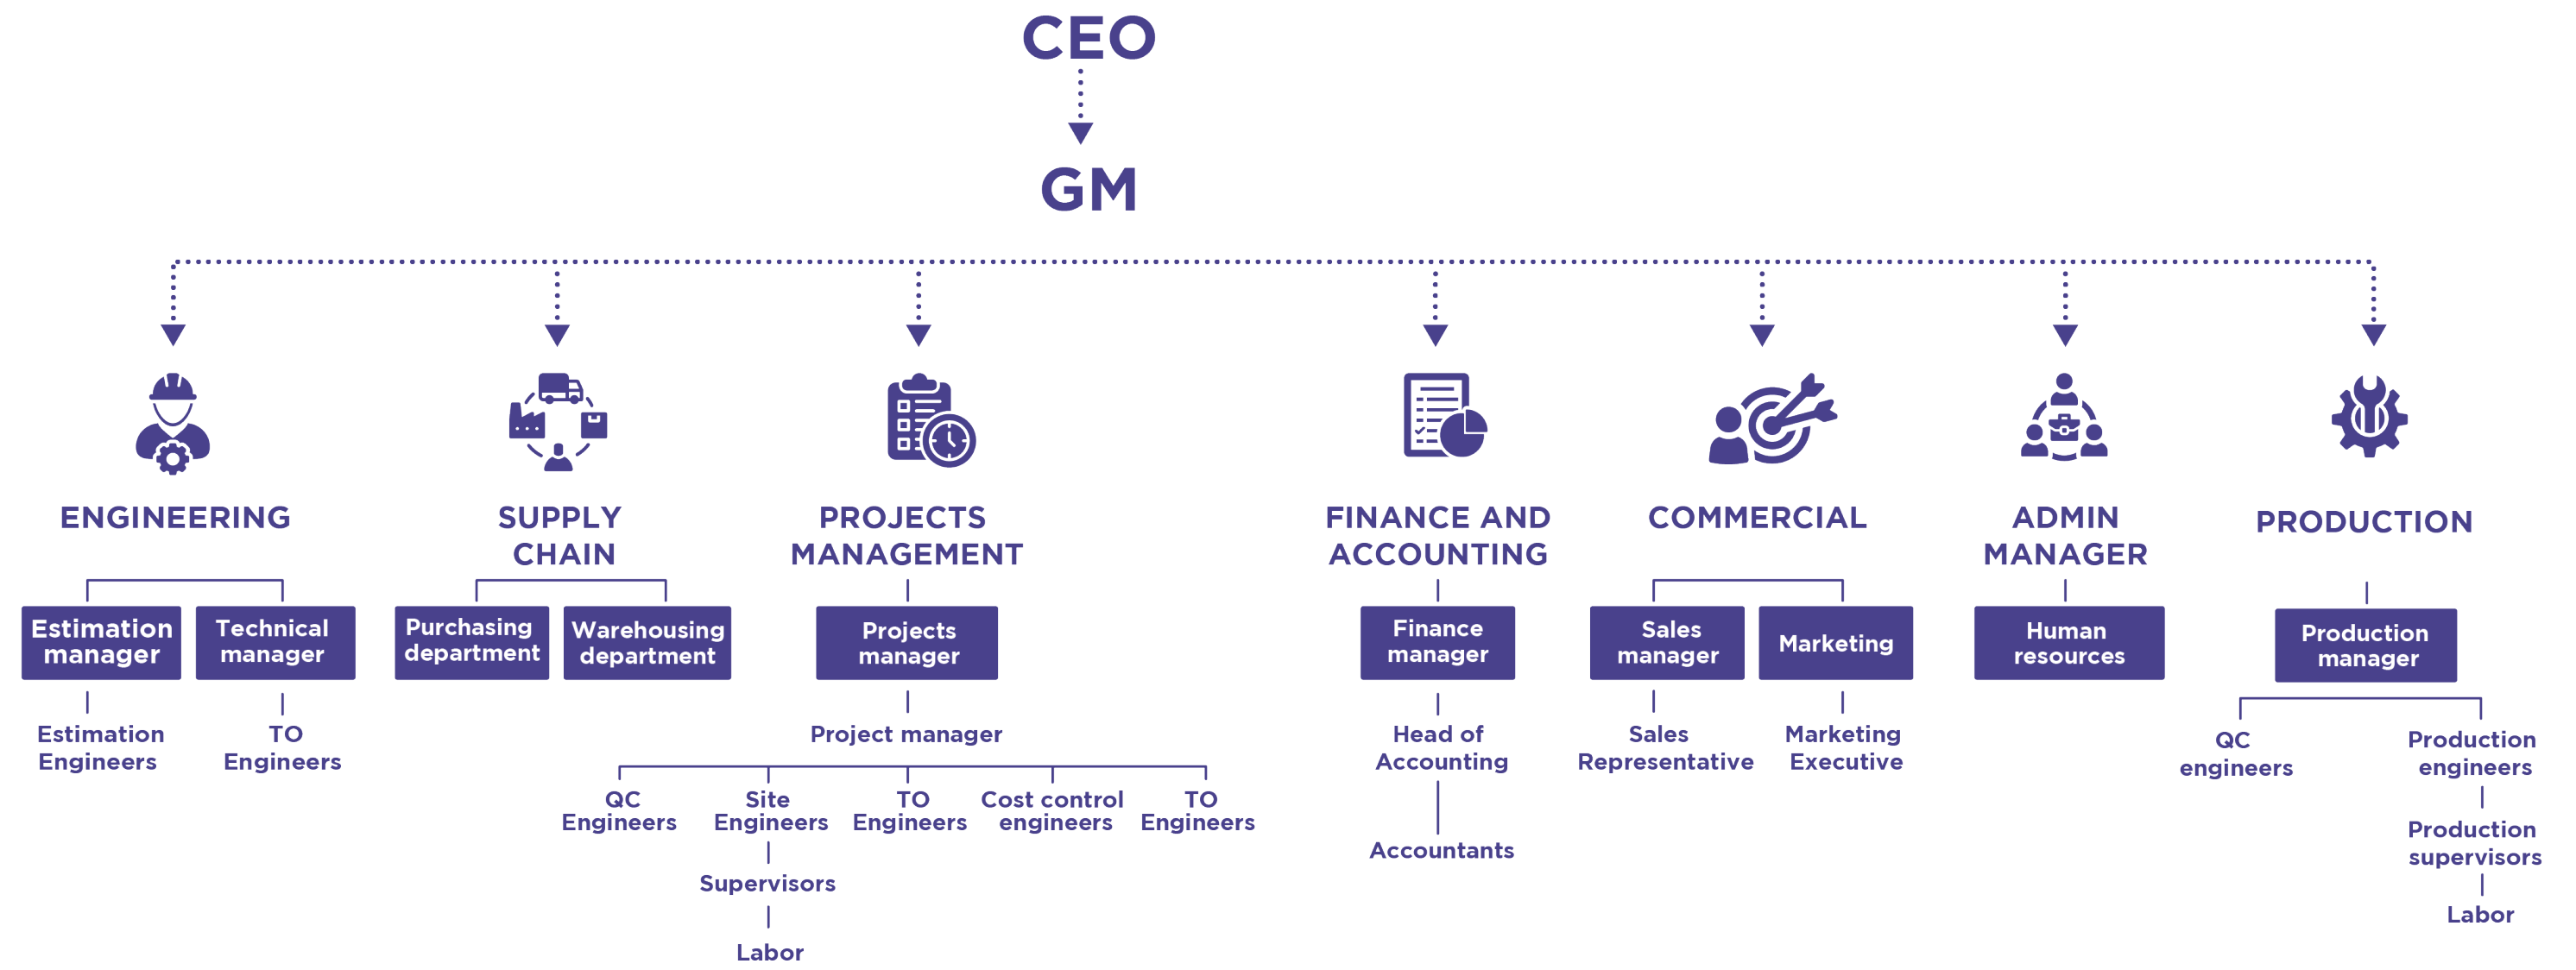

Hueck's technical director visited AGS factory to provide technical support on Cairo Bank project, one of the very rare UNITIZED curtain walls in EGYPT.

Expansion plan: Moving to a bigger factory with new production lines for Unitized curtain wall systems

ENVIRONMENT, HEALTH AND SAFETY POLICIES

Protecting our Planet, AGS believes that leading environmental, health and safety performance contributes to our competitive strength and benefits our customers, shareholders and employees as well as the environment. The safety of our workforce and the protection of our environment are of primary importance to us.

To protect our employees, the environment and our property, we are committed to:

AGS will comply with applicable environmental, health and safety laws, directives, regulations and other requirements as a baseline for doing business, not as a goal.

We believe compliance is owned by all employees, and will monitor such compliance through :

ENVIRONMENT, HEALTH AND SAFETY POLICIES

In particular, we will work to advance the following aspects within our operations:

Report

Laboratory Performance Testing of a Sample of Curtain Wall

Project : Cairo Bank, Egypt
Consultant : Engineering Consultants Group S.A.
Test Sponsor & System Supplier : Hueck Middle East
Aluminium Sub-contractor : Alu Guarantee Aluminium Systems
Report No. : DLR1968 Rev.0
Report Date : 24 October 2021

1. Summary of Test Results

The following summarises the results of the tests performed. For the full details refer to Sections 6.

1.1 Air Infiltration / Exfiltration Tests

The sample passed the air infiltration / exfiltration tests as per ASTM E283/E283M-19.

1.2 Water Penetration Tests

The sample passed the water penetration tests as per ASTM E331-00 (Reapproved 2016) & AAMA 501.1-17.

1.3 Wind Resistance Tests

The sample passed the wind resistance tests as per ASTM E330/E330M-14.

The above results are valid only for the tested sample as received.

2. Introduction

This report describes the tests performed at the Al Futtaim Element Materials Technology Dubai L.L.C (AFE) laboratory in Dubai at the request of:

Hueck Middle East,
P.O. Box 62194,
Dubai, U. A. E.

Contact: Moussem Huerli Contact no.: +971 4 804 8600
AFE Project / Sample No: PD110338 / DC3965A

The test sample consisted of a sample of curtain wall, fabricated and installed by Hueck Middle East, for the following project in Egypt:

- Cairo Bank

AFE is accredited to ISO/IEC 17025: 2017 by the United Kingdom Accreditation Service (UKAS), which assesses the technical competence of the laboratory, as well as its quality management systems.

This test report is personal to the client, confidential, non-assignable and shall not be reproduced, except in full, without the prior, written approval of AFE.

2.1 Purpose of Testing

The tests were carried out during September 2021 and were to determine the performance of a façade system with respect to air leakage, water penetration & wind resistance. The test methods, as amended by the project specification, were in accordance with the AFE method statement DMC3965A Rev.0 and were in accordance with the following standards:

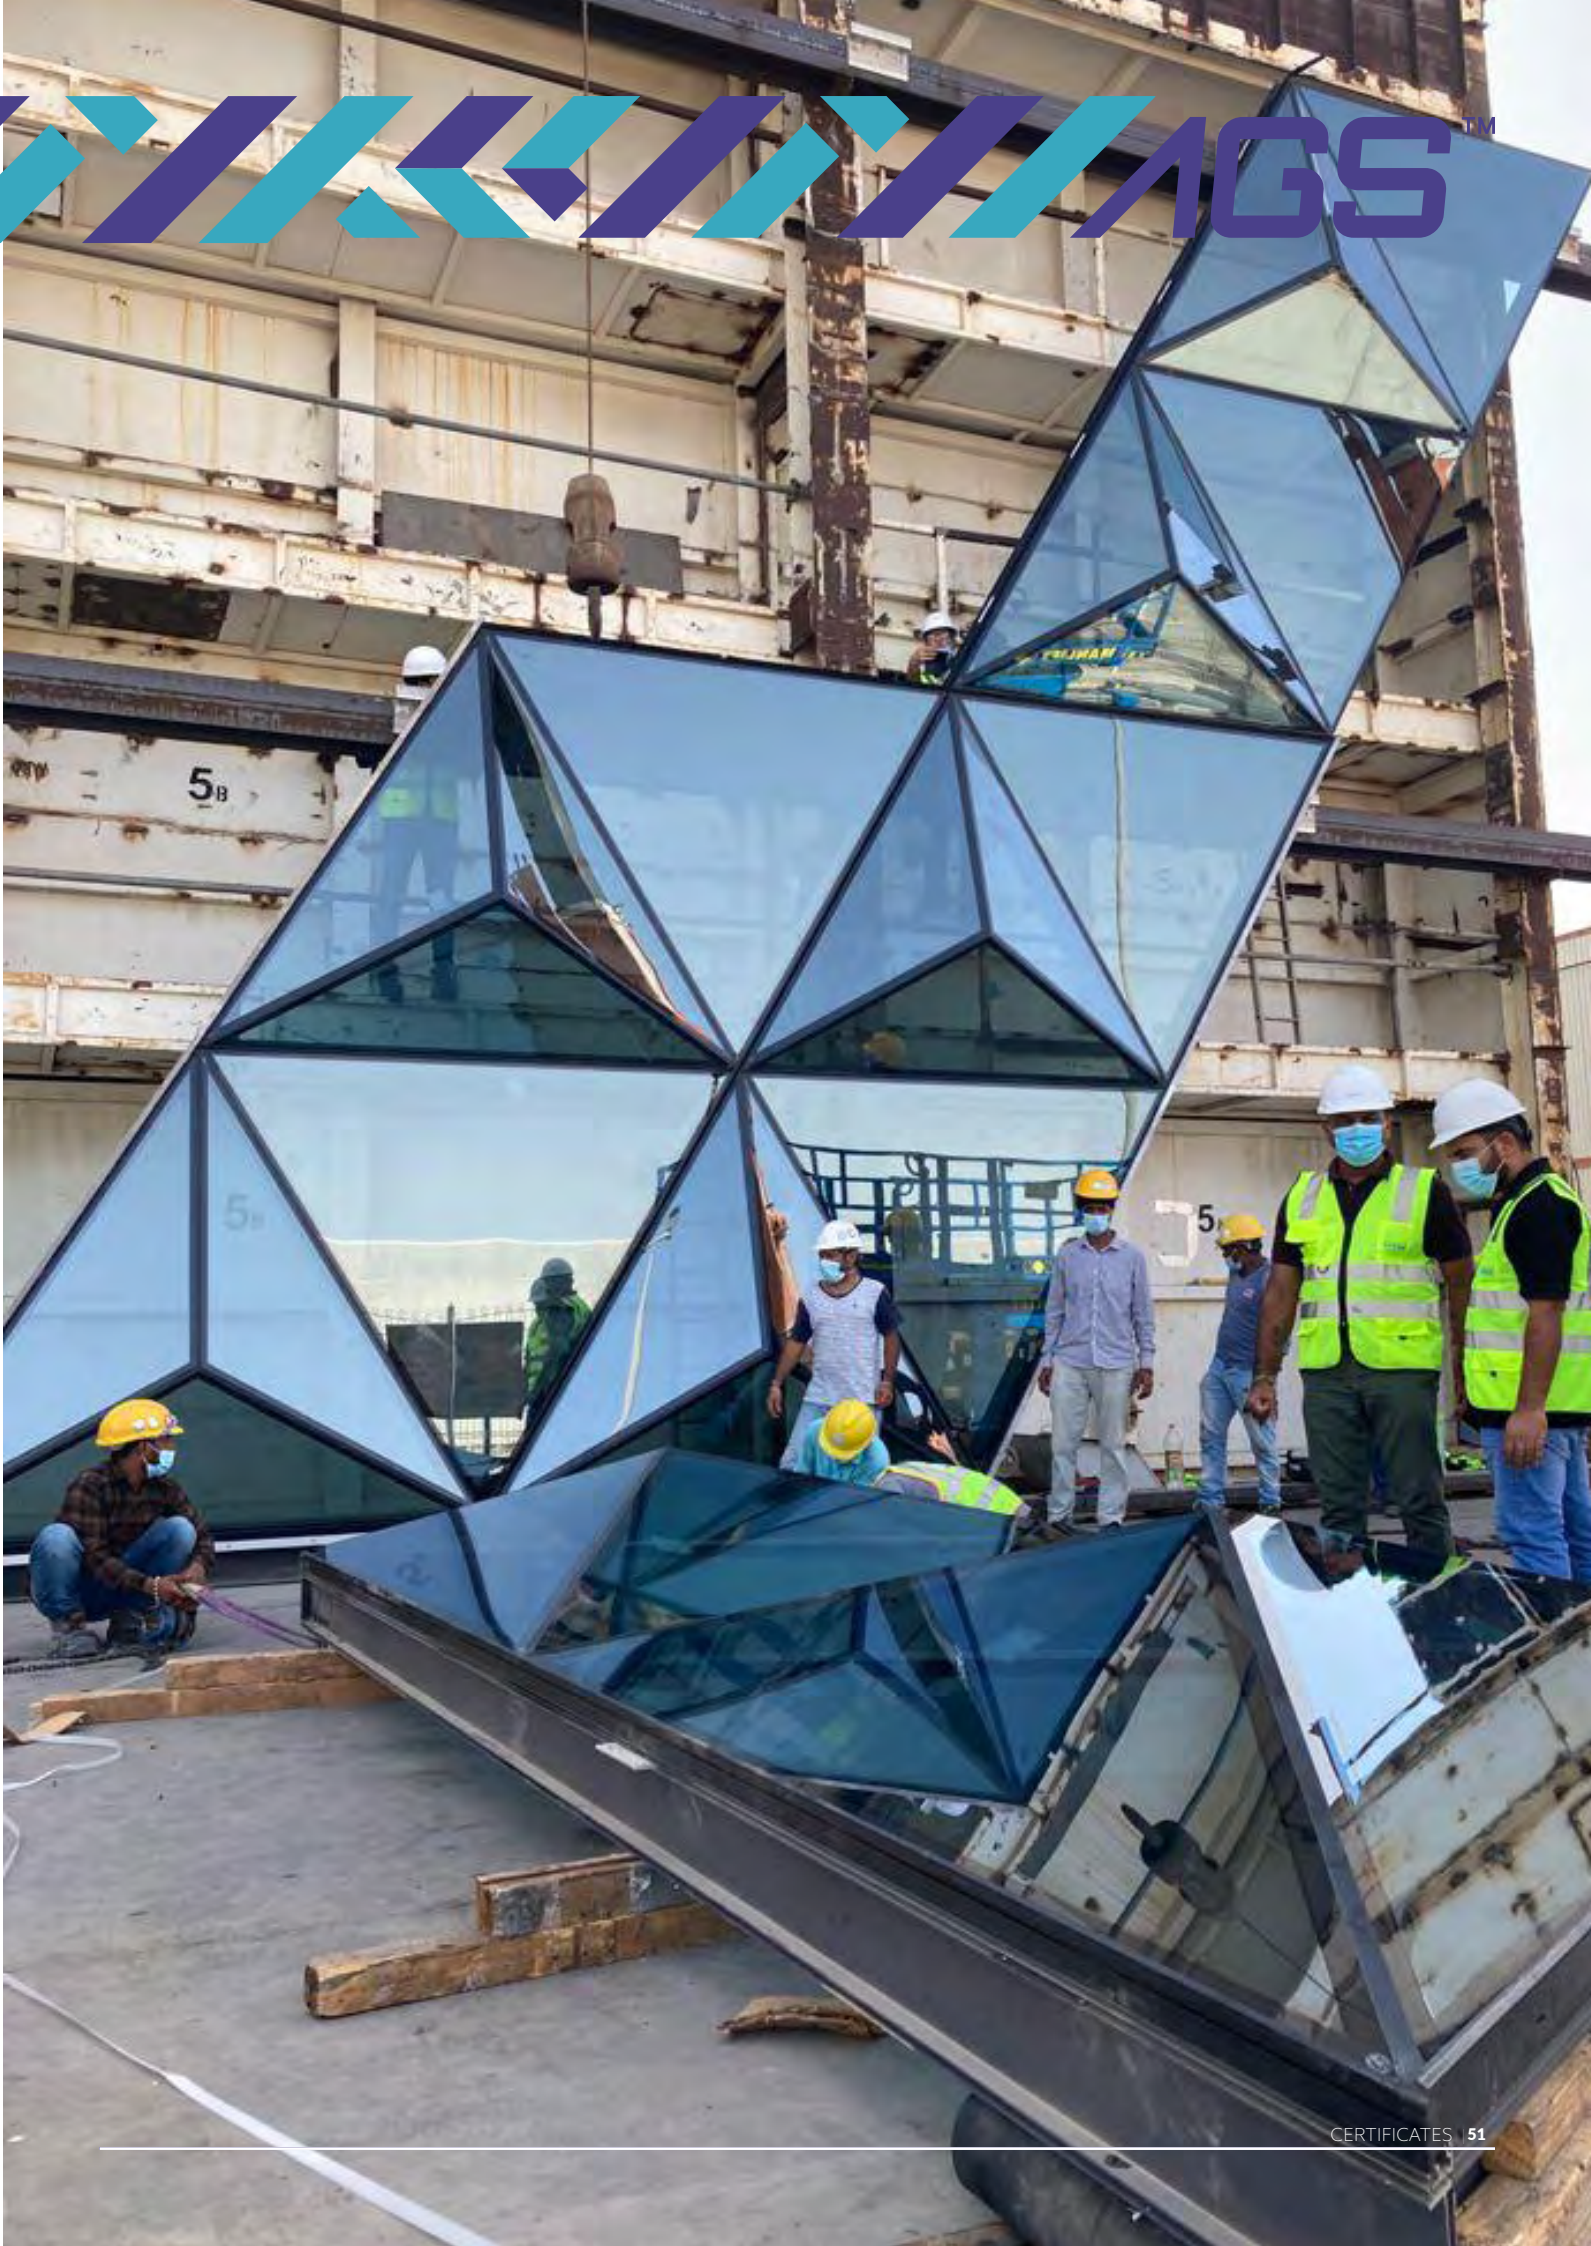

- Air infiltration / exfiltration ASTM E283/E283M-19
- Water penetration (static pressure) ASTM E331-00 (Reapproved 2016)
- Water penetration (dynamic pressure) AAMA 501.1-17
- Wind resistance ASTM E330/E330M-14

This test report relates only to the actual sample as tested and described herein.

The tests were witnessed wholly or in part by:

Waleed Azzam	-	Alu Guarantee Systems
Prasad Watere	-	Hueck Middle East
Archie Mayol	-	Hueck Middle East
Aalir Khan	-	Hueck Middle East
Duminda Perera	-	MJ Building Materials Trading DMCC

The tests were conducted by Module B1gal of AFE.

The company believes that its market expects a continually improving service. We aim to continually improve the service we provide to meet our clients' requirements. Only by providing an outstanding service and product quality will we achieve our aims of long term success and sustained improvements. All personnel within the company are responsible for the quality of their work. The company provides training and has established systems to assist all personnel to achieve the standards required.

We have the following systems and procedures in place to support us in our aim of total customer satisfaction and continuous improvement throughout our business:

-  01 Achieve our commitments for quality, cost, and schedule
-  02 Selection and performance monitoring of suppliers against set criteria
-  03 Training and development for our employees
-  04 Regular audit of our internal processes
-  05 Measurable quality objectives which reflect our business aims
-  06 Regular gathering and monitoring of customer feedback
-  07 All staff shall have individual responsibility for understanding and applying this Quality Policy in the performance of their tasks
-  08 Company management is fully committed to the Quality Policy through provision of resources, active participation in quality improvement activities

HUECK PARTNERSHIP

ALUMINIUM SYSTEMS
HUECK
GERMAN ENGINEERING SINCE 1814

With over 500 employees, Eduard Hueck GmbH & Co. KG in Ludenscheid is one of Europe's leading manufacturers of aluminium profile systems for windows, doors and façades, as well as aluminium profiles for the processing industry. Founded in 1814, the family company has been using its own extrusion presses for aluminium processing since 1908 and developing its own window, door and façade systems since the early 1950s. HUECK is Germany's only system manufacturer to have its own foundry, stamping facility and system development at a single location.

HUECK PROJECT REFERENCES

Nothing captures the reliable high quality and flexible applications of HUECK’s solutions better than the impressive array of premium projects featuring their products. Some of the outstanding projects that selected HUECK solutions, in the Middle East and globally.
